Radiodetection's Lexxi T1660 Time Domain Reflectometer for Metallic Cables

Innovative, economic cable fault locator

Radiodetection's Lexxi T1660 provides an unrivalled combination of performance, usability and economy.

Radiodetection has created Lexxi T1660 by taking the easy-to-hold ergonomics familiar to users of the Riser Bond Model 1550 and Bicotest Lexxi T810 and installing a unique TDR engine and a 3.5" color back-lit display.

The result is a cable tester whose 1% distance accuracy and resolution gives technicians the tool they need to find faults quickly and accurately. Added to this is the Lexxi T1660's great value that allows more technicians to be equipped.

The Lexxi T1660 is suitable for analysing all metallic cables consisting of at least two metallic elements, one of which can be the armouring or the screen. Cable types include CATV, twisted pair telecom, Ethernet and even LV power cables.

The Lexxi T1660 is shipped with a set of 100Ω crocodile clip Twisted Pair connection cables as standard. A range of optional plug-in modules make it adaptable to the requirements of a wide variety of industries and applications, with the Blocking Filter module allowing safe analysis of live 3-phase mains cables.

Radiodetection's Lexxi T1660 offers innovation and economy, enabling a step-change in productivity.

Features

- Large, color display
- 1% fault location accuracy
- 0.5m dead zone
- 6km, 19000' maximum range
- 7m, 23' minimum display range
- 11 range settings
- Operates from Alkaline or NiMH rechargeable batteries
- 12 hours typical battery life time (alkaline)
- User selectable Power Down time
- Selectable cable impedance
- VoP adjustable from 1% to 99%
- 100Ω Twisted Pair Alligator Clip cables included as standard
- Optional modules, including Category IV mains Blocking Filter, for twisted pair, coaxial and power cable use make the Lexxi T1660 suitable for multiple industries and applications

Large, easy to read color display simplifies fault locating in most conditions.

Modules for twisted pair, coaxial and power cables allow the Lexxi T1660 to find faults in wide ranging applications, even on live, 3-phase mains cables.

Lexxi T1660 is simple to use, with just 6 control buttons and an easy to follow menu to set your preferences.
